**Open to relocation** — GCC · Europe · USA · Remote

## ◆ SUMMARY

AI engineer and solo founder with a BS in Artificial Intelligence (CGPA 3.46 / 4.0, IUB). Built and runs **FAI Legal (failegal.site)**, AI legal research and drafting for Pakistan, with 188,602 judgments indexed and paid plans live. Ships at high volume: **200+ MQL5 Expert Advisors** for XAU/USD forex employing Smart Money Concepts (order blocks, FVGs), multi-MA ensembles, and range-box logic; **5+ end-to-end Amazon storefronts**; production multi-LLM orchestration pipelines. AI content creation and social media marketing for 5 clients. Galileo GDS-certified travel-tech background. Hands-on with Claude, GPT, Gemini, Kimi K2.5, and NVIDIA NIM via n8n, Make.com, Zapier, and Playwright + Chromium.

## ◆ EDUCATION

### The Islamia University of Bahawalpur (IUB) — Bahawalpur, Pakistan

March 2022 – January 2026

*Bachelor of Science, Artificial Intelligence*

- **CGPA: 3.46 / 4.00** · 130 credit hours · Result declared 31 January 2026
- **Relevant coursework:** Machine Learning, Artificial Neural Networks, Natural Language Processing, Computer Vision, Knowledge Representation & Reasoning, Data Mining, Information Security, Parallel & Distributed Computing, Data Structures & Algorithms, Software Engineering, Digital Image Processing

### Superior College for Boys — Bahawalpur, Pakistan

2019 – 2021

*Intermediate (FSc), General Science*

Computer Science: 94% (A+)

### The Nexus Education System — Bahawalpur, Pakistan

2017 – 2019

*Matriculation (SSC), Science Group*

Grade A (74%)

## ◆ EXPERIENCE

### Independent AI / Automation Developer · Self-Employed — Remote

2024 – Present

*AI Automation & Algorithmic Trading*

- Designed, built and run **FAI Legal (failegal.site)**, AI legal research and drafting for Pakistan, live with free and paid plans: answers are grounded in **17,768 statute sections across 289 acts** and **188,602 indexed judgments** (23,343 full judgments from 5 courts), with **58 drafting templates**; citation-verified output that never shows an unverified citation; Node.js and Supabase Postgres on his own Linux server with multi-model LLM failover, a three-layer prompt-injection and secret-leak guard, and an automated test suite that keeps web and desktop answers identical
- Architected and shipped **200+ MQL5 Expert Advisors** for XAU/USD (Gold-Dollar) forex across **scalping, swing, trend-following, and intraday** strategies; integrated **Smart Money Concepts** (order blocks, FVGs), **multi-MA ensembles** (RMA, SMMA, VWMA, EMA, SMA), **range-box logic**, candlestick pattern recognition, and alternative candle types; consistently positive backtested results across multiple market regimes
- Designed **5+ complete Amazon storefronts** end-to-end: storefront graphics, A+ Enhanced Brand Content, product-listing imagery, and brand identity systems for direct clients
- Built **multi-agent automation pipelines** in n8n, Make.com, and Zapier orchestrating LLM APIs (Claude Sonnet/Opus, GPT, Google Gemini, Kimi K2.5, NVIDIA NIM) with provider failover and cost-aware routing
- Run **AI content creation and social media marketing** for **5 clients**, including **Blk.Restaurant** (Abu Dhabi, Riyadh): built an automated **content machine** that turns client footage into reels, stories, carousels and humanized captions using **Higgsfield AI** video and DaVinci Resolve
- Built **Rose**, a WhatsApp AI assistant on his own server (Hermes Agent, NousResearch): a router sends each message to a specialist for reminders, research, voice notes and scheduled jobs; authored Claude Code **SKILL.md** packages and persistent-memory systems for cross-session procedural knowledge

GoHighLevel (GHL) Automation Specialist · Freelance (Self-Employed) — Remote

Jun 2024 – Jun 2025

Marketing & CRM Automation

- Built end-to-end **GoHighLevel** systems for remote clients: multi-step **automation workflows**, **CRM pipelines**, lead-nurture sequences, and tag/trigger-based routing
- Designed and shipped **sales funnels**, **landing pages**, **forms**, **surveys**, and **booking calendars** within GHL
- Configured **email & SMS marketing campaigns**, appointment booking, automated reminders, and follow-up sequences
- Set up and managed **client sub-accounts** and **white-label agency** environments — snapshots, client onboarding, and integrations via Zapier, Make.com, n8n, and webhooks

Skywise Travel & Tours (Pvt) Ltd — Bahawalpur, Pakistan

May 2022 – May 2024

Multi-Role Executive (concurrent with university)

- Owned three concurrent functions across a 2-year tenure: **IT/network configuration**, **graphic design** for marketing & branding (Photoshop, XD, Premiere Pro, After Effects), and **ticketing operations** including bookings and customer handling
- Produced full marketing collateral suite — banners, social-media creative, letterheads, ads — supporting business growth
- Recognized in formal recommendation as "dedicated, hardworking, reliable" and able to "manage multiple responsibilities efficiently" by company Director

Skymate Travel & Holidays (Pvt) Ltd — Bahawalpur, Pakistan (IATA-accredited)

Aug 2023 – Jan 2024

Graphics Designer & Travel Agent

- Operated **Galileo GDS** for international fare quoting, multi-leg route optimization, and ticketing
- Produced complete brand-identity assets — logos, letterheads, banners, visiting cards — for the IATA-accredited agency
- Cited by management as "intellectual, hard worker, innovator" with "ability to work as a team leader"
